SUMMARY

Results-driven Software Engineer with 3+ years of experience building scalable applications and AI-driven solutions. Proven track record in full-stack development using Flutter, React.js, and modern AI technologies. Currently developing D3E, an innovative AI-powered platform that generates complete applications from natural language prompts. Strong problem-solver with expertise in automating complex workflows and delivering high-quality software solutions.

TECHNICAL SKILLS

Languages: JavaScript, Dart, Python, Java, C++, SQL

Frameworks & Libraries: React.js, Flutter, Node.js, Express.js

Technologies: Artificial Intelligence, Machine Learning, Natural Language Processing, RESTful APIs, Microservices

Tools & Platforms: Git, AWS, Firebase, MongoDB, PostgreSQL, CI/CD Pipelines

Specializations: AI-Driven Development, Full-Stack Development, Code Generation, Workflow Automation

PROFESSIONAL EXPERIENCE

Software Engineer

September 2025 – Present

D3E Studio

Hyderabad, Telangana

- Architecting and developing D3E (Design Develop Deploy), a revolutionary AI-powered platform that generates complete software applications from single natural language prompts
- Implementing advanced AI models and prompt engineering techniques to automate code generation, reducing development time by 80%
- Building scalable microservices architecture to support multi-tenant application deployment and management
- Designing and optimizing full-stack solutions using modern frameworks to ensure high performance and reliability
- Collaborating with cross-functional teams to integrate AI capabilities into production-grade software systems
- Establishing best practices for AI-driven development workflows and automated testing pipelines

Software Engineer

August 2022 – September 2025

NITYA Software Solutions Inc

Hyderabad, Telangana

- Developed and maintained 5+ client-facing applications using Flutter and React.js, ensuring adherence to industry standards and client specifications
- Led full software development lifecycle from requirements gathering to deployment, improving delivery efficiency by 40%
- Designed and implemented RESTful APIs and integrated third-party services to enhance application functionality
- Collaborated with cross-functional teams of 5–10 members to deliver high-quality software solutions on schedule
- Optimized application performance through code refactoring and database query optimization, reducing load times by 35%
- Mentored junior developers on best coding practices, code reviews, and modern development frameworks

Fiber Technician (Industrial Training)

January 2022 – July 2022

SUNGLARE TECHNOLOGIES PVT LTD

Hyderabad, Telangana

- Completed comprehensive industrial training in Optical Fiber technology, gaining practical technical expertise
- Developed strong problem-solving skills and attention to detail through hands-on infrastructure work

EDUCATION

Bachelor of Technology in Computer Science

October 2022 – July 2025

Sri Chaitanya Technical Campus (AICTE Approved)

Hyderabad, Telangana

- Admitted after Diploma in ECE — 3-year program (Lateral Entry via TS ECET)
- Note: Pursued B.Tech via Lateral Entry while working full-time as a Software Engineer — a recognized AICTE-approved pathway for Diploma holders entering directly into 2nd year.

Diploma in Electronics and Communications Engineering

June 2019 – May 2022

Government Model Residential Polytechnic Gajwel

Gajwel, Telangana

KEY ACHIEVEMENTS

Received Certificate of Appreciation from President and CEO of D3E Studio for exceptional contributions and technical excellence

Pioneered AI-driven application generation platform, enabling non-technical users to create functional software

Successfully delivered 15+ production applications serving 1,000+ users with 99.5% uptime

Reduced development cycle time by 40% through implementation of automated workflows and CI/CD pipelines

Recognized for innovative problem-solving and technical leadership in fast-paced startup environment
